

# NOAA PRESERVE AMERICA Initiative

“Earth, Water, Wind and Fire: Monitoring & Observing Environmental History in the Los Angeles Area” Exhibit

NOAA National Weather Service Forecast Office in Los Angeles, California \$9,700

Project Lead: Dessa Emch, NOAA National Weather Service, Oxnard, California

Collaborating with two local colleges, NWS WFO at Los Angeles/Oxnard constructed the NOAA Global Monitoring Exhibit which showcases the important observing platforms used to serve five main areas of the NOAA/NWS mission: Hydrology, Fire Weather, Marine, Aviation and Climate.
